

Not Just For Grown-Ups!

By Darlene Frazier

Newspaper in Education Chair and ORA past-president

Young readers often think that the newspaper is just for adults. Use this activity to convince your youngsters that they can read the newspaper, too! Each student will need a newspaper, a copy of the “A Nose For The News Scavenger Hunt”(see below), scissors and glue.

Students may work together to find each requested item in the newspaper. Students cut the items out and glue them in the corresponding box. You can create a different scavenger hunt to better meet the needs of your students, by simply changing the text in the boxes. Have fun with this “newsworthy” activity!

Name _____

A Nose For The News

A Scavenger Hunt for the Newspaper
